

Dear Mr. Angelo Tassone,

I wish to thank you for the lovely improvements you and your crew made to my bathroom this winter. I had delayed for several years to remove my old bathtub and replace it with a walk-in shower because I dreaded the mess that would be involved. I need not have waited so long. Your crew came in and I hardly knew the job was going on because they were amazingly neat and tidy, clearing away everything every day so that the rest of the house was hardly disturbed during the time the renovation was going on.

Moreover, they managed to retain enough of the original decorative bathroom tiles that the new stall looks as if it was always there. The job of integrating the old tiles on both the wall and the floor was masterful indeed. The addition of the bidet function to the toilet has certainly been a success as well.

Thank you again, especially for accommodating all the extra touches that I asked for and for completing the task within the time promised. You have my sincere recommendations.

Leona M Deorksen.
