To Whom It May Concern:

Midas Construction recently completed a comprehensive repair and refurbishment of our home, involving carpentry, drainage and sewerage, and painting. From start to completion our relationship with Midas was very positive and the outcome most satisfactory.

From the outset we found that Angelo Tassone had our interests first and foremost. He outlined quality procedures that exceeded our original intentions.

All his workmen were craftsmen; all trades provided details of work that showed they held our interests paramount, The work was complete in every detail and as estimated, and the site was left neat and tidy.

We would not hesitate to engage Midas for any further work that may arise, and give our unqualified recommendation to any party considering similar work.

Yours very truly

Eleanor J. McEwen
