TO WHOM IT MAY CONCERN

This letter is an unsolicited recommendation of Midas Construction.

I am a widowed senior living in a modest home with a modest income.

Midas Construction has for the past ten years worked on many projects in my home and yard. The following projects have been completed.

- new custom kitchen
- 2 renovated bathrooms
- flooring
- driveway and cement walk/driveway and sidewalks
- sundeck coverings and railings
- patio cover
- fencing
- lighting

The moving force in Midas is Angelo. His best quality is treating you and your home with respect. I know I don't live in a million dollar home, but he always has a positive attitude, that makes the experience a pleasant one.

My experience with other construction companies has not been pleasant, i.e. messes left to clean up and no return calls. This is not my experience with Midas. Angelo always made sure the work was done correctly and completely.

The biggest asset Midas has is it's experienced trades people. My husband was a gasfitter for over 30 years and often lamented that many trades people were soon to retire. He had seen too many trades people who lacked experience or who really cared about the quality of their work. Midas workers were always gentlemen and had excellent skills.

I have no hesitation in recommending Midas for any home renovation.

Good luck Midas and thank you for all your hard work.

Marien McNeal
